

*Education department, Järfälla,
Sweden*

Kirsti Jolma

Project/Development leader

kirsti.jolma@jarfalla.se

Our institute is proud of...

1. Establishment of Järfälla guidance center

Motivation:

- A current "youth" list (16-20 years) produced
- Individual follow up – all young people 16-20 years
- Specific funding for follow up who already left school from the Board of Education
- A model for documentation and follow-up produced

2. Unga på gång – Youth on the move

- organizational structure and coordination between different departments

Motivation:

- Based on the individual youth's needs and circumstances
- Operational groups
- Coordinating responsibility is on the Education Department
- Good results

One challenge that we meet is...

- **Preventive activities at an early age**

Explanation:

- Identification of young people at risk of dropping out
- Coordination between different educational levels (elementary and secondary school)
- Information and communication to all relevant groups
- Need of education and training
- Access to research
- Goal oriented and long-term work
